No.S 105/I/419. Karwar,17-10-1958.

Subject: Disforestment of 10 acres out of F.S. No.314 from Gaonthan ..village Amdalli, taluka Karwar.

I am herewith submitting the papers relating to the proposals for disforestment of an area of 10 acres out of F.S.No.314 of Amadalli village for gaonthan purpose.

It is reported that there is no vacant gaonthan area in Amdalli village. There is a great demand for house site plots from the houseless people belonging to the Ager Community (Scheduled).

It is,therefore, proposed to disforest an area of 10 acres out of F.S.No.314 of Amdalli village for gaonthan purpose to meet the house site demand of the Ager community.

Since the Deputy Commissioner is not competent to disforest an area measuring more than 5 acres for such purpose, Government may kindly be moved to order disforestment of an area of 10 acres out of F.S.No.314 of Amadalli for gaonthan purpose.

There is no objection from the Forest Department for disforestment of an area of 10 acres out of the said S.No.

After disforestment of the area, necessary action for layout of house site plots etc.will be taken in accordance with the orders and policy of the Revenue Department.

Returned.

2. The Deputy Commissioner's report is not self-contained. The number of families for whom the land is required, the area proposed to be granted to each family, the area proposed to be assigned for other public purposes, roads etc., and the terms and conditions on which it is proposed to grant the land should please be reported. It may also be made clear whether occupancy price will be charged to all the grantees at a fixed rate or whether the plots will be auctioned.

3. Para 5 of the letter appears to be incorrect. It appears there is no objection from the Forest Department authorities to the disforestment of the required area. His report should please be sent through the Conservator of Forests, B.C., Belgaum.

Resubmitted to the Divisional Commissioner, Belgaum.

2. The number of families who are in need of house sites is reported to be 22(vide page 19). Some 14 persons have stated that they may be granted plots of 20 gunthas each to meet their house site demand (vide page 11). The demand put forth by them is very excessive. An area of 5 gunthas each would be quite sufficient for house site plots. However, no decision was taken as to the size of the plot to be granted and the conditions on which they should be granted etc. for the following reasons:

3. It is already made clear in the report that there is no vacant gaonthan in the village. As per Government orders contained in G.R.R.D.No.2916/45 dated 27-9-1948(copy enclosed), the Collector should initiate steps to provide needy villagers with house sites without waiting for applications from the.

In accordance with this, house sites plots are proposed to be laid out to meet the present and future demand. After taking into consideration, the immediate needs of 22 families and the eventual demand of the villagers, proposals for disforestment of an area of 10 acres(which is the approximate area required) have been submitted. So, it was specifically mentioned in the last para of this office letter No.S 105/I/417 dated 17-10-1958 that action to lay out plots etc. will be taken in accordance with the orders and policy of the Revenue Department which is within the powers of the Deputy Commissioner.

It is, therefore, not considered necessary at present to make detailed enquiry into the exact needs of the persons and the terms and conditions to be attached to the grant and the way in which the plots are to be disposed of etc.

If all these details are incorporated in the order of disforestment, the Deputy Commissioner or the Assistant Commissioner will be left with no discretion to make variations according to the local conditions without a reference to Government with the consequential delay in the disposal of the plots. To obviate this, it would be better to pass orders of disforestment without any stipulations so that the Deputy Commissioner or the Assistant Commissioner, so far as is within his powers, may exercise full discretion in the matter of lay out and disposal of plots according to the local conditions.

As regards para 5, the word "no" was omitted in the typing. Necessary corrections have now been made.
